# SLQ - HP8100 Workshops

Your computer was donated by State Library of Queensland.

It was used by SLQ from about 2009 until 2013. Once SLQ has written off the computers,

The Edge wipes the data that was on them [1];

and stores them on-site ready for CCC workshops.

You'll be supplied with a tower, a monitor, a mouse and a keyboard.

Lets get started with Workshop 01!
